Query ID	STU202616692656137222
Grievance Type	Exam Related Issues
Nature of Grievance	EXAM RELATED ISSUES
Grievance Create Date	18-05-2026
Subject	Arbitrary Internal Marks Awarded & Institute Refusal to Justify — Subject 3183201 BE Sem 8 SALITER GTU

Description	I am Jainil Ramkumar Gupta, Enrollment No. 220670132018, BE-ICT Semester 8, SAL Institute of Technology & Engineering Research, Ahmedabad (GTU Affiliated, Institute Code: 067). I have been awarded 68/100 for Subject Code 3183201 (Internship/Project) which is arbitrary, inconsistent, and unjustified. PROJECT QUALITY: I built "AI-Powered Border Surveillance System with Real-Time Anomaly Detection" — a complete production-grade AI system including: custom YOLOv8 model (5 days training, 124% mAP50 improvement), dual ML pipeline (Isolation Forest + Random Forest), live Microsoft Azure cloud integration (Blob Storage + Cosmos DB), 285 automated tests, and GitHub Actions CI/CD pipeline. GTU portal status: Completed — 1 May 2026. Zero late submissions. BATCH INCONSISTENCY: Batch of 39 students, 3 internal guides. Batch average: 80.67/100. 35 of 39 students scored 75+. Students with simpler projects (basic Power BI dashboards) under other guides received 85+. I am in bottom 4 despite having the most advanced project. INSTITUTE REFUSED TO JUSTIFY: I formally approached Internal Guide Mr. Chintan Rana and HOD Dr. Nimisha Patel on 16-05-2026 requesting the marking rubric and specific reasons. No specific justification was provided. Instead I was told: "We are doing you a favor", "Who are you to question the process", and "Changing your marks would be injustice to others" — while simultaneously stating "everyone is evaluated individually." This is a direct contradiction and proves arbitrary evaluation. PROCEDURAL VIOLATION: The subject is Internship/Project yet the institute stated "it is not about the project" — criteria outside subject scope were applied. I have already filed grievance with GTU SGRC. The GTU marks relock window is 19-21 May 2026. I urgently request UGC intervention before this deadline closes permanently.
